Washington, April 22—Chairman Underwood laid before the ways and means committee the new Democratic tariff revision bill. It was approved by a strictly party vote of 14 to 7 and reported to the house to be acted upon.

Belgium Workmen Win

The Political Strike

Brussels, Belgium, April 22.—The political strike in Belgium after keeping at a standstill the country's industry and commerce for ten days, was today brought to a conclusion favorable to the workmen, nearly half a million of whom laid down their tools to enforce their demand for equal suffrage. This is the first occasion on record in which a political strike has resulted in victory for the strikers and the whole movement has been notable for the energy and determination displayed and for the excellent control under which the strike was conducted. The leaders of the Socialist trade unions and followers gained their chief point which was to make the government take up for consideration a change of the Belgium parliamentary franchise with its hated system of plural votes for the wealthier and more educated classes.

Premier DeBroqueville announced this afternoon in the chamber of deputies that the government had accepted a bill introduced by F. Mason, the federal leader, providing for a compromise. This means the strike will

When Mrs. Rosenberg was arrested, her detectives said they found in her pocket the photograph of an attorney in this city, said to have been the legal adviser of the women and of the men whom she is charged with having tried as procurer.

It was not until the Levy girl was brought back from Redlands that the officers felt they had sufficient evidence to warrant placing the felony charge against Mrs. Rosenberg.

The county grand jury is expected to take some definite action on the case today.

**HOTEL BALLS MAY
BE PLACED UNDER
BAN AT BOSTON**

Boston, April 22.—Society dances lapsing in boldness anything attempted in public halls are mainly responsible for the abuses developed in dance halls, said Mayor John F. Fitzgerald.

The bodies were immured in concrete. The sister Marie was taken to the City Hospital two weeks ago after she had broken her leg in a fall down stairs.

A week before that time neighbors noticed the absence of her mother and sisters and upon inquiry Marie related that her sister Selma had died and that the mother had taken the body to Illinois for burial. The finding of the bodies resulted from a suit which the owner of the building, Arthur Sturr, made to the building. He noticed a peculiar odor and telephoned to the police, and an investigation by two detectives resulted in the finding of the bodies.

The mayor's statement was made in connection with an announcement that unless dance hall conditions in Boston are improved he will close up the most offensive places, and might compel them to adopt a uniform hour of closing—either midnight or 1 o'clock for other ballrooms.

A committee of the Public Franchise called upon the mayor to ask for "a dance hall ordinance" for municipal regulation and expressed surprise that the mayor should invade dance floors—the cheaper dance halls—under any consideration except that of late-night closing hours.

Mayor, "As far as I am concerned, the worst thing they could have done is a good example. At a debutante parties and other events in the Baco dancing begin until 11, and it runs until the morning."

IMPROVEMENT OF POPE CONTINUES

Rome, May 22 — The Pope was much less troubled with coughing today. He is also without fever. He himself said today that he was much improved.

...The revenue from all income taxes readily respond to changes of rates and the latter can be raised or lowered within a few days time without business disturbances such as general tariff changes occasion. It is believed that a budget or other effective system by which congress may be able closely to calculate and determine in advance forthcoming expenditures will soon be devised, in which event it should become easy to maintain a close balance between expenditures and revenue such as is practiced in most other civilized countries. With other sources of revenue revised to an honest and even basis, and the income tax a permanent part of our revenue system and at all times affording a substantial amount of revenue, congress could, and if necessary, should annually raise or lower the income tax rates in such manner as would prevent either a deficit or a surplus in the treasury. This combined tax system would afford justice in taxation, flexibility and stability of revenue, and rigid economy in expenditures."

The Democrats, outlining their policy in the preparation of the bill, announced an absolute disregard for the cost-of-production theory as regulatory of tariff rates, and declared that in the pending bill they had attempted:

"To eliminate protection of profits

and to cut off duties which enabled industrial managers to exact a bonus for which no equivalent is rendered. "To introduce in every line of industry a competitive tariff basis providing for a substantial amount of importation, to the end that no concern shall be able to feel that it has a monopoly of the home market defined other than through the fact that it is able to furnish better quality goods at lower cost and to

Seeking a Solution For Flood Problem

NO APPROPRIATION IS MADE

Deemed Better by Authorities to Concentrate Forces For One Comprehensive Country Wide Project—National Department of Public Works Under Cabinet Member is Advocated.

St. Louis.—The reading of a telegram from Washington pledging the Wilson administration to investigation toward the solution of flood, drainage and river navigation problems, the adoption of resolutions urging the creation of a national department of public works under a cabinet member, the defeat of a resolution urging a congressional appropriation for the flood prevention plans of the Mississippi river commission—these events marked the closing session of the national drainage congress here.

In addition the drainage congress adopted resolutions providing for the establishment of a malaria section of the drainage congress and urging the southern states to appoint commissions that will co-operate with the United States public health service in stamping out malaria.

The message from Washington outlining the attitude of the administration was addressed to David R. Francis, retiring president of the drainage congress. The message follows:

Secretary Tumulty authorized the following as being substantially an expression of the president's opinion at this time:

That the president hopes to see and will strive to bring about substantial progress during his administration toward solving of flood, drainage, river navigation and other such problems; that if the national drainage congress concludes creation of a special department of the government will assist solution he will give earnest consideration to question, that suggestion appears to offer a practical way of co-ordinating the various agencies.

DAVID R. FRANCIS.

nation and of improving the government's facilities for grappling these questions, but that he hesitates to commit himself until he has studied the subject more fully as to method—in short, the president has an "open mind." The same suggestions have been made during and considered under the two preceding administrations. The situation simply is that the president would prefer to investigate records and consult his advisers before advocating so sweeping a change. Secretary Garrison is now preparing a report on the ways and means of coping with floods. This may have a bearing on the president's course.

The resolution urging a congressional appropriation to carry out the plans of the Mississippi river commission was presented by R. B. Oliver of Cape Girardeau, Mo., and precipitated the

only stirring debate that occurred during the entire session.

"Why talk of further investigation," said Mr. Oliver, "when the Mississippi river commission already has made an investigation and eminent engineers have announced that its plans for flood control are feasible? It is little short of murder for this congress to go on record as failing to endorse the plan of the commission when along the lower Mississippi today people are being driven from their homes and separated from their friends by floods that they cannot control and that originated in regions north of them."

Mr. Oliver's speech brought forth several replies, the speakers contending that the drainage congress should not center its attention on one project, that the matter had been discussed thoroughly in the resolutions committee and that it was the part of wisdom to present a united front for a department of public works which should take over all matters of flood control.

The Tragedy of Two Hunters.
Vancouver, B. C.—The skeletons of two men, believed to have been M. Maloney and Edward Whalen, hunters, who disappeared on Thurlow Island, on the northern British Columbia coast nearly three years ago, have been found. BEAUTIFUL HAIR DO YOU WANT IT?

You Can Surely Have It By Using Parisian Sage.

Who does not have a beautiful head of hair? You may think it is a gift, that some women are born that way. The fact is, beautiful hair is largely a matter of cultivation, just as you would water the plants in your garden and fertilize the soil.

Parisian Sage is a scientific preparation which the hair and scalp readily absorbs. It removes dandruff at once. It puts a stop to itching scalp and makes your whole head feel better—as if your hair had had a square meal.

One application will astonish you—it will double the beauty of the hair. If used daily for a week you will be simply delighted with the result—you will want to tell all your friends that you have discovered Parisian Sage. You should see the number of enthusiastic letters we receive from delighted users.

All doubts settled at one stroke—your money back if you want it.

Parisian Sage is a tea-colored liquid—not sticky or greasy—delicately perfumed, that comes in a fifty-cent bottle. The "Girl with the Auburn Hair" on the package. Get a bottle today—always keep it where you can use it daily.

Sold by Evans' drug store and at drug and toilet counters everywhere.

Banner Grange.

The Brownsville Banner Grange met at the usual time April 15. An especially well prepared program was rendered to a large and appreciative audience. The program for the next meeting is as follows:

Piano solo—Mrs. Nella Orr.
"Care and Feeding of Young Chickens"—Mrs. Burge Orr.
Vocal solo—Ray M. Redman.
Debate—Resolved that devotion to fashion is a greater evil than the tobacco habit. Affirmative—John Mack and John McCracken. Negative—Prof. Zwaver and Orla Rankin.
Music by the Grange.

Reputation and character are about as synonymous as the North and South poles.

OVER-NIGHT RELIEF FOR CONSTIPATION

A Small Dose on Retiring and You Are Well and Happy by Morning.

It is only natural that the simplest of ailments should be the most general, and so we have a whole nation suffering from constipation and indigestion, for they are closely allied. But common as constipation is, many people do not seem to know they have it. They will complain of headache, drowsiness or listlessness, all unconscious of the cause of the trouble.

You should have a full and free movement at least once a day. If you pass a day you are constipated and the result will be that you will catch a cold easily or have a more serious ailment. To cure the constipation and forestall still greater trouble take a dose of Dr. Caldwell's Syrup Pepsin at night. A good night's sleep and morning relief will come without disturbance from sleep or any inconvenience.

Legions of people use it regularly in such emergencies, some to them formerly chronic invalids who have suffered from constipation all their lives. Mr. A. B. Danner, 129 River street, Harrisburg, Pa., says: "Dr. Caldwell's Syrup Pepsin gave me almost instant relief from stomach and bowel trouble. I now eat anything I want and sleep well." Many others will tell you that they have tried most things recommended for this purpose, but have found Syrup Pepsin the only one all ways reliable. A bottle can be obtained at any drug store for fifty cents or one dollar, the latter size being bought by families already familiar with its merits.

MR. A. B. DANNER.

Syrup Pepsin is mild, pleasant-tasting and non-gripping. Mothers give it to their infants, and yet it is effective in grownups. It is for everyone who suffers from any form of stomach, liver, or bowel trouble, constipation, drowsiness, listlessness, etc. Its action will so delight you that you will forever avoid harsh cathartics, purgatives, pills and salts.

If no member of your family has ever used Syrup Pepsin and you would like to make a personal trial of it before buying it in the regular way of a druggist, send your address—a postcard will do—to Dr. W. B. Caldwell, 417 Washington St., Monticello, Ill., and a free sample bottle will be mailed you.

Caldwell, O., and to this union ten children were born, Mrs. Clara Baesel (Baesel) of Lowell, Mrs. Harry Askins living near here, and Charles, Elmer, Mary, Fred, Anna, Belle, Maggie and Johnny of the home. Beside these she leaves behind two brothers, two sisters and two grandchildren.

"The hand that rocks the cradle shapes the destinies of the universe," but now her cares are all over and she has gone to reap her reward, which is life eternal—for as ye sow, so shall ye reap.

"His Father's way, said a pilgrim, And he lifted his fearless glance; I know that my steps are ordered, Nor ever committed to chance; So, whether I cross the desert, Or traverse the forest deep, Or win to the mountain's summit, His angel my feet will keep.

The pilgrim, gently led, Went calmly forward, unafraid, And trustfully he said, The desert path with sands o'erlaid, The mountain trail, the forest glade, Hold naught of doubt or dread, For pilgrim's angel-led.

There is no death, what seems so is transit; This life of mortal breath, Is but a suburb of the life elysium, Whose portal we call death.

WILLIAM BURTON HILLEARY.

FIREMEN'S CHIEF SAYS RAILROADS WASTE REVENUES

New York.—Discussion of revenue, incompetent and wasteful management and watered capitalization are charged against the roads by W. S. Carter, international president of the Brotherhood of Locomotive Firemen. In a brief filed with the arbitration board which hears the wage dispute between the firemen and the fifty-four eastern roads.

The railroads frequently asserted at the hearings that to grant the firemen a 25 per cent annual increase in wages would be to create a financial burden to be borne by a number of the roads.

"All the railroads engaged in the present proceedings when the actual amount of capital invested in roadbed, structures and equipment is considered, without reference to watered capitalization or financial investments, show sufficient operating revenue to cover all operating expenses, including a liberal advance in wages to firemen and all legitimate capital charges," said Mr. Carter. "If the construction of a railroad has been without economic justification or no profitable traffic is developed in the territory which it traverses or if it is constructed without regard to development traffic through an agreement with connecting roads, these facts are no ground for denying firemen the payment of proper wages.

"If the stocks and bonds of a railroad company have been properly issued for the purpose of granting bonuses to stockholders, to underwriters or promoters or acquiring the bonds and stocks of other transportation companies and industrial corporations at in-

flated values the necessity of paying dividends on such stocks or interest on such bonds cannot be urged as a reason against the grant of increased wages to locomotive firemen.

"The proceeds of the labor of the firemen and other railroad employees should not be used by diverting a part of the operating revenues each year into additions and betterments to give a market value to railroad securities which were originally worthless.

"These unpardonable methods of increasing outstanding capitalization have not only rendered absurd that claim that all railroad stock and bonds should receive dividends, but they have imposed a heavy and grievous burden on the firemen and other labor engaged in conducting transportation and capital actually invested in the railroads, because they have caused large drains on operating revenue without making any contribution to the value or earning capacity of the railroad properties.

"Forty-four of the roads involved in these proceedings showed a combined net surplus of \$273,288,931. With this enormous amount at their disposal it is evident that they are fully able to pay the increase in wages asked by the firemen, which, according to the roads themselves, would result in an annual charge amounting to less than a twenty-fifth of the total amount of surplus now held by the railroad companies opposed to this arbitration."

Of the deal whereby the Toledo, St. Louis and Western railroad—the Clover Leaf road—acquired control of the Chicago and Alton in 1901 Mr. Carter said:

"By the issue of new securities in the process of reorganization 57.23 per cent of the capitalization of the company was fictitious and represented no actual property or earning capacity. Dividends and interest charges on this capitalization represented an unjustifiable burden on the labor and capital operating the road."

**OUR NEW CONG.
DISTRICT NEIGHBORS**

The new congressional red-
istricting bill is not creating as
many sore spots in the new 17th
district as in some other sections
of the state. Though four new
counties are added to two of the
old districts their location and po-
litical affiliations and sentiments
are such as to make all six coun-
ties of the new district real neigh-
bors.

Though the popular qualifica-
tions and adeptness of the present
member of the 17th district, Hon.
Wm. A. Ashbrook, are pretty well
known all over the state, his ac-
tivity, talent and faculty for doing
things for his constituents will
soon be so well known by our new
neighbors of the district that ap-
preciation cannot fail to be wide-
spread and substantial.

The readers of the Advocate
will be interested in the reproduc-
tion of the following editorial
from the Mr. Voter, Baltimore:

In New Company.
After many years Knox
county finds itself in new
company in congressional
matters. Under the red-
istricting bill passed Friday
we are now part of the
Seventeenth District, which
is composed of the counties
of Ashland, Richland, Knox,
Delaware, Lincoln and Cus-
hwa. The new Senate is
Democratic, Hon. William
A. Ashbrook of Lincoln
county is now a member of
congress and will, no doubt,
be an efficient one. It is
from this new company of
counties that we have
elected Mr. Ashbrook, who
is a man of high character,
and one who will be an ef-
ficient representative of
this new district.

**Spring
Cleaning**
Is as important in your physical sys-
tem as in your house. Take
Hood's
Sarsaparilla—the true blood purifier.

Editor James L. Gorman, of
Ironton, is the first Ohio Demo-
cratic postmaster to be appointed
and confirmed. It will be well re-
membered by all old timers in po-
litics that it was General Andrew
Jackson, who, as president of
these United States, made it a dis-
tinct policy of his administration
to appoint Democratic editors to
be postmasters. The people, by
the policy, got good newspapers
in those days, and enjoyed prompt
delivery of the mails, both of
which were popular and beneficial
and were a credit to the ad-
ministration of the
Democratic administration.

ATTENTION CORN BOYS

As soon as the state of Ohio boys
will be raising corn this year.
Many will be going for a trip
to Washington and other places.
Others will simply be raising the
crop for profit. In either case
they will want to get the largest
yield possible. Books, bulletins
and farm papers will be eagerly
studied in search of the latest and
best information. With a view to
giving these boys in one bulletin
the latest facts in regard to corn-
growing, Professor A. G. McCall
of the College of Agriculture has
prepared a "Corn Catechism." The
"Corn Catechism" is made up
of material taken from several of
our best authorities. It takes the com-
mon preparation of the soil,
the selection of seed for the next
year. Each point to be considered
is presented in the form of a
question and then answered in
direct simple language. The reader
is first asked: "Is it possible to
raise one hundred bushels or more
of corn per acre under Ohio con-
ditions?" The answer is "Yes."
The official records of the Ohio
Corn Improvement Association
show that under good manage-
ment an entire field can be made
to average more than one hundred
bushels per acre. The second
question is "What are the condi-
tions necessary for this large
yield?" Then follows a clear dis-
cussion of the best way to manure,
plant and till. To get one or more
copies of this bulletin, which is
free, simply write to the College
of Agriculture at Columbus.
While this bulletin will be of spe-
cial interest to boys, it will no
doubt be largely read by men of
all ages.

HOMES FOR WORKINGMEN.

As winter is the time for study-
ing building plans, so spring is the
time for building. But with the
cost of construction advanced at
least 50 per cent in 10 years, it is
quite a proposition for the work-
ingman of today to own his own
home.
Yet a contented artisan popu-
lation, settling down in one place
with some degree of stability, en-
joying little gardens, is one of
the greatest safeguards to pros-
perity. Nothing tends to check
public extravagance like the value
of the small tax-payer.
One of the best possible propo-
sitions for the workingman is the
giving of a double apartment
house on mortgage. If he can get
a few hundred dollars ahead, he
can usually secure the loans on
first and second mortgage. Rent-
ing half his space will about pay
his interest bill, leaving him little
for the cost of repairs, insurance
and taxes to pay as his rent. Un-
der these conditions the cost of his
housing will come fairly cheap.
Erection of dwellings under such
conditions is the most substantial
kind of housing.

An effort is going to be made
to stop paying a "taxing" charge
levied. Notwithstanding the afore-
said, the charge is very com-
mon, and is a very good one, which
will be a credit to the state.
The Ohio State Board of
Education has decided to
abolish the charge.

At present the condition of the
Ohio Valley for fishing out of the
parlor window are not as favor-
able as they were.

**Burleson Has Many Troubles;
Trying to Better the Service**

By ARTHUR W. DUNN.
Washington, April 22.—[Special.]—
Postmaster General Burleson is obliged
to give considerable time to office seek-
ers, but he is also giving a great deal
of attention to the administration of
the department. About the first thing
he requires is efficiency. Different bu-
reaus and divisions have been investi-
gated by his efficiency commission with
a view of improving the business of
the department. He intends to have
the investigations go further and to
ascertain why the mail should not be
collected, dispatched and delivered
with expedition and the number of
complaints diminished.
If greater efficiency is demanded it
is possible that some old time clerks
and employees may have to be demoted
or retired to private life, but that is
the fate of men who have grown too
old in the service to be of any use.

How They Take His Time.
From morning until night the post-
master general's anteroom is crowded
with men who want to see him. Of
course it is easily understood why sen-
ators and representatives want to see
him, but they make up only a small
portion of the number. Strange as it
may appear, hundreds of men come
from all parts of the country seeking
jobs as postmasters at their home
places.

"Why don't you get your congress-
man's endorsement?" they are asked,
and in reply they give forty reasons
why the congressman is against them.
Yet they take chances on a trip to
Washington to see if they can get the
office despite the congressman's in-
dorsement of another man. This is
one cabinet officer's time taken up
during the day, and he works at night
to make up for his good nature in lis-
tening to them.

Color Line and the Tariff.
You would scarcely expect to see the
color line injected into the tariff, but
that is what is likely to happen. We
may expect to see the delegate from
Hawaii and the commissioners from
the Philippines and Porto Rico all
lined up against the free sugar provi-
sion in the tariff bill. Free sugar will
compete with the products of those is-
lands which now enter the United
States free of duty. And by the color
line I mean that all of the representa-
tives of the islands are dark skinned
in appearance, dark enough to attract
attention among white men.

Want Them All to Go.
Defeated Republican senators and
congressmen don't care how soon all
the Republican officeholders are turned
out either in Washington or in their
states and districts. They believe that
Republican officeholders retained un-
der the Democratic administration will
become lukewarm, while if they are
turned out they will become active par-
ties.

**PROFESSOR GRAHAM
INSPECTS SCHOOLS**

Several members of the Agri-
cultural College faculty have as-
sisted in making the Rural School
Survey of Ohio recently author-
ized by law. Professors A. B. Gra-
ham, Superintendent of Agricul-
tural Extension, on account of his
long acquaintance with rural
school affairs has taken special in-
terest in this subject. Members
of the Extension Department who
have assisted Professor Graham in
the school survey are M. A. Bach-
telor, H. E. Eswine, Josephine Mat-
thews and Mabel Miskimen.

BOYS JUDGE STOCK

Among the county fair boards
which have announced live stock
judging contests for boys to be
held next fall are Seneca, Logan,
Wayne, Shelby, Darke and Ash-
land. Several other counties
have partly made arrangements
for this educational feature. An
instructor is secured from the
College of Agriculture to grade
the work of the boys and award
the prizes. Probably the increased
interest being shown all over the
state in stock judging for boys is
due to the stress which attended
contests held in Seneca and Logan
counties last year.

The Congressional Record will
never get much circulation until
it gives away an automobile to
the most popular congressman.

Stammering, pathological bashfulness

due to its vulgar exploitation by side-
show charlatans.

**Playwright Chambers, 53 Today, Was
Australian Cowboy.**

Charles Haddon Chambers, better
known without the Charles, was born
at Stanmore, near Sydney, Australia,
thirty-three years ago today, and was a
cowboy on the Australian
cattle ranges before he went to Eng-
land and became famous as a play-
wright. His father and mother were
Irish by birth, and the former was
long employed in the New South
Wales civil service. Mr. Chambers
began life as a clerk under his father,
but soon tired of that occupation and
went out into the "bush" as a stock-
rider. At twenty he made his first
visit to England and Ireland, and re-
turned two years later to begin a
journalistic career. From reporter he
turned to story-writer, basing his tales
on his experiences in the bush. He
was twenty-eight when his first im-
portant play, "Captain Swift," was
produced by Beerbohm Tree at the
Haymarket Theatre in London. It
was the beginning of a successful
career as a dramatist and was fol-
lowed by "The Idler," "John A.
Dreams," "The Tyranny of Tears,"
and numerous other plays. Few play-
wrights have attained fame and for-
tune so speedily as the young man
from Australia. Mr. Chambers's valet,
called "the admirable Hogg," is scarce-
ly less famous than his master.

Senator Poindexter, 45 Today.

Miles Poindexter, United States sen-
ator from Washington, is a son of the
South, having been born in Memphis
Tenn., forty-five years ago today. As
a student at Washington and Lee
University he was a Democrat, but he
switched to progressive Republican-
ism soon after opening a law office in
Walla Walla, Washington, in 1891.
Six years later he located in Spokane
and in 1899 was elected to Congress.
His brand of insurgency was pleasing
to his constituents, and they express-
ed their gratitude by boosting him in-
to the senate.

J. Ham Lewis

J. Ham will be
going with whisk-
ers a-flowing to
stand in the senate
observed of all
eyes; his speeches
will thunder the
from the fretted dome
under the logic of
one who is gifted
and wise. But none
will be noting the
sawes he's quoting,
the facts he ad-
vances, the theo-
ries he'll spin; for
all will be gazing upon that amazing
resortment of spinach that hanks from
his chin. His whiskers are flossy and
flaming and glossy, like tropical ver-
dure, luxuriant, rank; they're rip-
pling and waving, they're strangers
to shaving, they're red as the nose of
a tropical crank. He's fine at debat-
ing, he's good at orating—his talents
are wasted, though sicker than
treason no odds what he'll utter the
"ware will matter." The man with
the whiskers is speaking a piece!
in masterly fashion, all throbbing
with passion, he'll argue some ques-
tion important and deep; congressional
dilemmas will look at his ringlets
and yearn for a barber and then go to
sleep. He'll deal in the splendor of
speech so tender would melt a stone
image or even suffragette; the senate,
swelling, will see his beard shaking,
and mutter: "Old Whiskers is whisk-
ering well." And thus a man efful-
gent and so gifted with hopes that
he'll see a new era begin, is doomed
to be laughed at and jollied and char-
tered for because of the flaccid affliction
of his chin.

**Dr. Quackenbos, 65 Today, Has Hyp-
notized 10,000 Patients.**
Doctors disagree on many subjects
connected with the healing art, but
on none more violently than hypno-
tism. Some physicians of recognized
attainments consider suggestion, as
they prefer to call hypnotism, the
great medical discovery of the age.
Other doctors, equally prominent in
the profession, pronounce it as mere
charlatanism and quackery. Dr.
Woods Hutchinson, for instance,
places hypnotism as a curative power,
on a par with the blood of a black
cat. Dr. John Duncan, Quackenbos's
eminent authority on mental and
moral diseases, is equally certain that
hypnotism is of immense value to
the medical fraternity.
Dr. Quackenbos, who was born in
New York sixty-five years ago today
and has been practicing in that city
for forty-two years, was a pioneer in
the study of mental suggestion or
hypnotism. The eminent professor
superior of Columbia University has
over ten thousand persons into a
hypnotic condition, and in every case
he believes, the sleeping subject
has benefited from the treatment. Sug-
gestion, he has found, has its greatest
use in the treatment of neurotic dis-
orders, delirium, psychasthenia or
moral exaltation, and allied nervous
diseases, especially when it is accom-
panied by medical treatment for the
removal of the physical poisoning
that often causes such ailments. He
has also used hypnotism effectively in
the treatment of diabetes, hay fever,

**To Women
Seeking Health and Strength**
For those ills peculiar to women Dr. Pierce
recommends his "Favorite Prescription" as
"THE ONE REMEDY"
A medicine prepared by regular graduated physician of un-
usual experience in treating women's diseases—carefully adapted
to work in harmony with the most delicate feminine constitution.
All medicine dealers have sold it with satisfaction to cus-
tomers for the past 40 years. It is now obtainable in liquid or
sugar-coated tablet form at the drug store—or send 50 one-cent
stamps for a trial box, to Buffalo.
Every woman may write fully and confidentially to Dr. Pierce,
Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and may be
sure that her case will receive careful consideration, and that experienced medical advice will be given
to her absolutely free.
"Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver
and bowels. Sugar coated, tiny granules easy to take as candy."

Being "Near"

It takes rather careful judgment to know when you are stepping across the line from economy into stinginess and meanness, doesn't it?" asked the clubwoman of her friend.

"I suppose it does, though I hadn't thought of it," replied the friend. "Economy is always held up as such a virtue that it doesn't seem possible it can descend into a vice."

"It can though. And if you have a liking for being economical, the vice of economy will get you before you know it."

"But does any one like to be economical?"

"Some women do," replied the clubwoman sagely; "they find a positive joy in seeing how low they can keep household expenses. They view with delight the fact that they never waste a scrap of food. They darn stockings till you no longer wear stockings but darn—translated by the wearer into something more explosive. And so it goes, until the whole atmosphere of such a home is saving and scrimping. If such a thing were necessary, it might be commendable; though even then I doubt it, for the person who does this is making for herself limitations and this is never commendable. But when it isn't necessary, it is really most harmful."

"I got to thinking of this," went on the clubwoman, "because of a woman I know who is this sort. She is really well off, but she has the 'near,' as some people call it—taint in her blood. And it is really spoiling her life. It began with little economies about the house, which in themselves did no harm. But now it is spreading to big things, which not only cut her out of much right enjoyment, but is actually making her mean and miserly. And if she doesn't root the trait out, her old age will be a very narrow, shut-in state of existence."

"They are wealthy, as I said, and a few thousand dollars more or less is no more to them than so many nickels to you or me. Yet she never goes out in her auto without lecturing her husband about buying so expensive a car. When they travel, she won't permit him to go to the best hotels. She simply can't bear to part with the money, though they have really more than they know what to do with. And when she entertains her one idea is to do it as cheaply as possible, though she attends and enjoys the elaborate entertainments of her friends. But she is not generous enough to want to repay them in kind. And it is this spirit, back of these actions, that is going to make her into a narrow, unlovely woman, if she doesn't check it."

"That is true," said her friend, meditatively, "though I never thought the spirit of economy could develop into such an evil genius as this."

"It will though," replied the clubwoman. "If you just give it free rein, and don't watch where it is taking you."

BRIGHT'S DISEASE IS CURABLE

if one-tenth of the letters and statements we have received are true. Some of them include the analytical chemists' figures insuring the genuineness of the cases and the results. They come from all classes, including business and professional men; some are from physicians. The writers do not know us and are not interested in us and would have no motive in writing us other than the truth, and it is absolutely impossible to escape the conclusion forced by these letters, viz: that Bright's Disease is curable and that many of the ninety thousand annually dying from the disease can live on to other terminations.

The truth that these letters and statements carry is of vital interest to insurance companies, to the government and to the people. We would welcome an investigation by the highest court in the land into their genuineness, the motives that prompted them, and the facts they disclose and a judicial decision on them as to the curability of chronic Bright's Disease, alleged to be incurable the world over.

If you have Bright's Disease you owe it to yourself and family to try Fulton's Renal Compound before giving up. It can be had at F. D. Hall's drug store.

For report on our investigation into the curability of Bright's Disease write John J. Fulton Co., San Francisco.

Common Pleas Court.

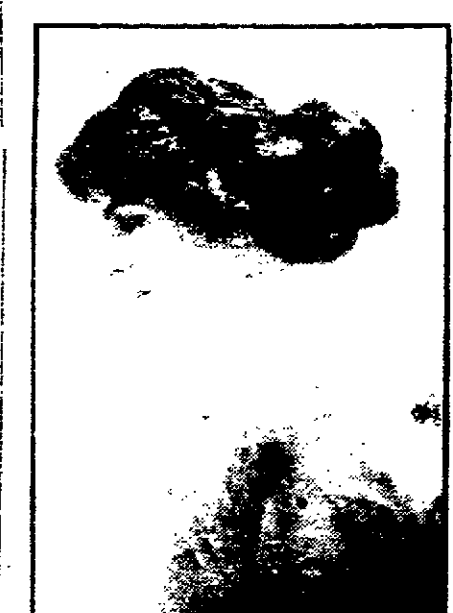

The land damage suit of Edward Crawford against George Kirk, who has consumed the attention of Judge Fulton and a jury in common pleas court for five days, was concluded and left with the jury Tuesday afternoon. The suit is for \$400 damage, claimed by Crawford, which he alleges was due to a fire started by Kirk and which spread to the plaintiff's farm land.

The property involved is situated about two miles north of St. Louisville. Attorneys for the defendant were Taylor and Smythe, while Norpell and Martin represented the plaintiff.

When a man makes a fool of himself he is terribly surprised, and he can't quite understand why the rest of the world shouldn't also be.

MARY NASH IN "THE WOMAN" AT HARTMAN

David Belasco's great presentation of William C. DeMille's play, "The Woman," will be the attraction at the Hartman Theatre, Columbus on Friday and Saturday, April 25-26, with a Saturday matinee. This play comes direct from a nine months' run at the Republic Theatre, New York City, with production and cast intact. The

cast includes such well known names as Mary Nash, Jane Peyton, John W. Cope, Edwin Hold, Cuyler Hastings, Harold Vosburgh, Charleton Macy, Stephen Fitzpatrick, William Holden, Langdon West, James Gerson and Jose Rossi. The scenic production is elaborate and both it and the characterizations of the players bear the indelible mark of the genius of David Belasco, the wizard of the stage. The play tells a story of life in the National Capital, the background being a phase of political life in that city. While classed as a serious play, "The Woman" is filled with bright and clever lines and contains many a hearty laugh. The play possesses unusual interest and is filled with surprising climaxes. "The Woman" has been classed by newspapers and magazines critics in New York and Chicago as one of the strongest and most interesting that has ever come from the Belasco studio.

TODAY'S BEAUTY RECIPES

By Mme. D'Mille.

A woman feels like crying when she finds her comb full of hair. Falling hair and faded, dull and brittle hair means that the scalp is harboring a parasite that destroys hair. Mother's Secret removes these parasites and puts the scalp in clean, wholesome and healthy condition, so that the hair will grow luxuriantly.

Delicious so popular as a superlative hair remover because its use does not discolor or roughen the skin. To remove hair on the face or forehead, cover the surface for a minute or two with a little paste made by dissolving Mother's Secret in water. When the paste is removed the hairs will be gone.

Headaches, sprains, colds and undigested food are greatly improved by the famous Vauclair home treatment. Make a syrup of 1 1/2 cups sugar and a pint of water. Then stir in an ounce of gallic. Take two tea-spoonsful before each meal.

Headaches, sprains in back or joints, rheumatism, sore muscles and other aches yield to Mother's Salve which penetrates the pores and relieves almost instantaneously.

When a woman is responsible for her own health, and a good complexion, she should use Mother's Secret. To correct facial blemishes, remove the spots and make the skin fresh, rub the face with the massing, the face will be clear and glowing.

LOCAL EAGLES VISIT THE AERIE AT JOHNSTOWN, O.

Sixty-five members of Newark society, Fraternal Order of Eagles, including a band, were taken to Johnstown Sunday evening to take part in the local work in connection with the building of the new and out of the city.

Following initiation a large number of new members were taken into the order. A large number of new members were taken into the order.

WORKERS WILL MARCH.
Denver, April 22.—The Industrial Workers of the World, numbering 100,000, were placed in jail as vagrants last week, were released by city authorities. The prisoners are to leave the city at once.

HEALTH HINT FOR TODAY.

Relief For Tired Eyes.
The eyes are tired eyes. Use their eyes near work long at a time will find relief in closing their eyes. Looking at distant objects for a few moments from time to time. There are muscles in and about the eyes that are in a condition of contraction constantly. One is reading, writing or doing near work. Closing the eyes for a few moments or looking at distant objects will relax these muscles to relax and rest them.

"The Kayser" SILK Glove

The Genuine "KAYSER" Gloves cost no more than the "ordinary kind," don't wear out at the finger "tips," and bear that mark of assurance of quality and reliability—the name "KAYSER."

In manufacturing "KAYSER" Silk Gloves no effort is counted too great to bring about that superlative degree of excellence, which gains recognition upon merit alone.

When offered the "just as good" kind—remember the Cross Roads WARNING—Stop—Look—Listen

Stop—and consider that the "just as good" kind never equals the genuine.

Look—in the hem for the name "KAYSER."

Listen—to the excuses offered for the absence of the maker's name—and—insist on seeing the name "KAYSER" in the hem of the silk glove you buy.

The State Lawmakers Have a Busy Session

LIQUOR LICENSE IS PROVIDED

Workmen's Compensation Act Made Compulsory—New Public Utilities Law Passed Creating New Commission to Enforce Provisions—First Steps Taken to Secure New Penitentiary in the Country—Good Market Roads Assured.

Columbus, O., (Special).—The legislature completed the active program of enacting laws Saturday, April 19, and took a recess until April 28, when a short session will be held for the purpose of correcting errors that have been made and winding up the business of the assembly.

The session has been a busy one, an unusually large number of bills having been introduced in each branch. The measures, except those of a purely local nature, which were marked into laws follow; those not marked "emergency," not becoming effective until 90 days after the governor affixed his signature to them:

H. B. 69, Black of Wyandot—Stringent anti-lobby bill. Requires all persons, firms, corporations and associations that either lobby or employ others to lobby to register with secretary of state, setting forth subject matter of legislation and amount of money expended. Fine of \$100 to \$1,000 provided for violations. Emergency measure.

H. B. 173, Black of Hamilton—Creates a state legislative reference department, provides for the maintenance and administration of the department and creates the position of state legislative reference librarian. Ten thousand dollars appropriated for department. Emergency measure.

H. B. 133, Cowan of Putnam—Appropriation measure carries \$2,485,000 for the common schools, \$62,500 for Miami university and Ohio university, \$400,000 for Ohio State university, \$25,000 for Wilberforce and \$37,500 each for Ohio Normal and Miami Normal universities; also \$325,000 to pay interest on the irreducible debt. The aggregate appropriated is \$3,435,000.

H. B. 73, Young of Cuyahoga—Places clerk of the supreme court in the list of appointive offices and authorizes the supreme court judges to make the selection.

S. B. 8, Friebolin of Cuyahoga—Gives effect to the constitutional amendment which permits verdicts to be returned in civil cases in common pleas court by nine jurors.

S. B. 71, Friebolin of Cuyahoga—Permits verdicts to be returned by three-quarter juries in municipal courts.

S. B. 72, Friebolin of Cuyahoga—Permits verdicts by three-quarter juries in justice courts.

H. B. 74, Young of Cuyahoga—Takes state dairy and food commissioner from list of elective officials and places him in the appointive class.

H. B. 103, Brennan of Cuyahoga—Cures a slip in present law so as to have all polls close at 5:30 p. m. At present city polls close their doors at 5:30, while those in the townships continue until 6.

H. B. 154, Brennan of Cuyahoga—Designed to give workmen better opportunity to vote by declaring a holiday from noon until polls close on each November election day.

S. B. 33, Haas of Delaware—Increases from 60 to 70 years the maximum age of persons that may be taken into fraternal insurance societies.

S. B. 76, Gregory of Hamilton—A measure intended to compel voters to cast a solid ballot for presidential electors and arranges the ticket so that a mixed ballot can not be cast for presidential electors.

S. B. 83, Weiser of Putnam—Authorizes indeterminate sentences for all except first degree murder cases, persons convicted shall serve minimum penalty, but the state board of administration, after that is done, may determine when the incarceration shall end.

H. B. 104, Fellingner of Cuyahoga—To prevent the publishing of false and fraudulent advertisements, with the responsibility placed on the advertiser.

S. B. 75, Gregory of Hamilton—Provides for separate ballots for state and national tickets.

S. B. 163, Potting of Summit—Seeks to prevent the overloading of street cars by providing a penalty for crowding conveyances beyond 50 per cent of normal capacity.

H. B. 180, Horwitz of Meigs—Makes a large saving by abolishing county blind relief commissions and transfers the duties performed by such boards to the probate judges.

H. B. 146, Barthelme of Tuscarawas—Making it a felony for an intoxicated person to drive an automobile upon the public highways.

H. B. 319, Black of Hamilton—Cures defects found in the Smith 1 per cent tax rate law by the supreme court of Ohio. This tribunal decided that the levy for sinking fund and public debts were not included in the 1 per cent limitation of the Smith law.

H. B. 53, King of Franklin—Cures a defect in the existing code of weights and measures laws by authorizing the state dairy and food commissioner to prepare and enforce all rules and regulations necessary to carry into execution the laws relating to weights and measures.

H. B. 49, Tettlow of Columbiana—Gives the right to sue to widows, chil-

aren, parents and next of kin of persons injured through accidents that occur by violations of the state mining code.

H. B. 91, Kilpatrick of Trumbull—Compels the installation of water closets in interurban cars operating over lines of more than 10 miles in length.

H. B. 133, Hite of Perry (Good Roads Bill)—Authorizes the state board of administration to have convicts make road building material and to work on the roads. The prisoners to be paid their net earnings, the same to go to their families or to be held in trust for them until the end of their incarceration.

S. B. 26, Dollison of Hocking—Makes it a felony for one to solicit or extort anything of value from prisoners in Ohio penal institutions in consideration of a promise made to the prisoner that a parole or pardon will be procured.

S. B. 54, Bernstein of Cuyahoga—Makes it a misdemeanor for an Ohio employer to discharge an employee who refuses to work during the afternoon of a November election day, or refuses to permit an employee to serve as an election official.

S. B. 97, Seward of Richland—Provides for the appointment by the governor of a state school commission to make a complete survey of the educational system of the commonwealth, the results of the same to be reported back to the general assembly. Commissioners serve without compensation. Emergency measure.

S. B. 43, Green of Coshocton (The Compulsory Workmen's Compensation Bill)—Requires all employers with five or more persons on their rolls to insure in the state fund, except that one or more manufacturers, after giving bond, may maintain their own compensation funds. These must contribute to the state's reserve fund, however. Provides a certain and definite fixed scale of compensation that is to be paid for deaths and all kinds of accidents.

S. B. 137, Haas of Delaware (The State Industrial Commission Bill)—Authorizes the appointment by the governor of a state commission of three, which is to take charge and supervise the work of the department of labor statistics, chief inspector of mines, inspectors of workshops and factories, chief examiner of steam engineers, board of boiler rules, and the state board of arbitration. The commission shall also supercede and perform all the duties of the present state liability board of awards. The commission is given broad discretionary powers as well as extensive mechanical powers over all classes of manufacturing, is to provide for the welfare and safety of employees and is intended to act as a mediator between capital and labor in all disputes.

H. B. 30, Bonnell of Guernsey—Protects skunks until Dec. 1, 1915, and after that date these animals can be killed only between Dec. 1 and Feb. 1.

H. B. 98, Thatcher of Clinton—Repeals the statute which permits common pleas judges to appoint two examiners to investigate the annual report of the county commissioners.

H. B. 109, Schaeffer of Cuyahoga—Amends the pure drug act so as to make it a misbranding of drugs if a package contains a label bearing a false statement of the curative or therapeutic effect of the ingredient.

H. B. 298, Welsh of Ottawa—Prescribes how nets shall be set in Lake Erie by fishermen.

S. B. 23, Seward of Richland—Provides for the reorganization of the state department of public works. In place of the three members of the state board of public works, which had charge of the department with numerous supernumeraries, a state superintendent of public works became the head of the department.

H. B. 54, King of Franklin—Strengthens the sales by weight law by providing that agreements for the sales of products by other devices must be in writing instead of verbally, as was the case in existing law.

H. B. 77, King of Franklin—Prescribes dimensions of measures so that false ones can not be used by fraudulent dealers.

H. B. 216, Kramer of Richland—Authorizes the state dairy and food commissioner to co-operate with official chemist in establishing standards of purity for food products and shall promulgate the same. Such standards are to conform with those promulgated by the secretary of agriculture.

H. B. 632, Lavy of Henry—Appropriates \$250,000 for Ohio flood sufferers. Emergency.

S. B. 132, Hudson of Scioto—Requires the payment of wages semi-monthly by every individual, firm, company, co-partnership, association or corporation doing business in the state.

Sub. S. B. 78, Holden of Warren—Provides for the appointment of commissioner to study the system of farm credits in Europe and other countries for the purpose of reporting back recommendations for such system in Ohio.

H. B. 84, Mueller of Montgomery—Authorizes the county commissioners in each county to appoint a superintendent of county and joint county ditches.

H. B. 214, Morris of Fairfield—Gives the state board of administration custody of all minors being neglected, dependent, defective, delinquent, insane, epileptic, feeble-minded, crippled or deformed, who are committed to any state institution. Authorizes the transfer of state wards from one insti-

tution to another in the interests of the child's health or physical condition; authorizes establishment of temporary detention home for the observation of minors committed to state institutions.

H. B. 640, Snyder of Pickaway (A Flood Relief Measure)—Authorizes county commissioners, township trustees, councils of municipalities and boards of officers thereof temporarily to repair, reconstruct and replace bridges, culverts, viaducts and approaches thereto, destroyed or injured by the flood, and to exempt all bonds issued for these purposes from the limitations of the Longworth debt limit act, and all tax levies are to be exempt from the limitations of the Smith 1 per cent law. Technical procedure required by law to make repairs to public works also temporarily suspended. Emergency measure.

H. B. 650, Vanderhelde of Montgomery (A Flood Relief Measure)—This authorizes the treasurer of state to deposit not to exceed \$3,000,000 of the state treasury balance in building and loan associations in flood districts to aid home builders; no association to receive more than \$300,000, nor shall get more state money than its paid-in capital stock; rate of interest 4 per cent annually. Emergency measure.

H. B. 138, Snyder of Pickaway—Requires electric, interurban and street railroads operating over by electricity conducted through or along third rails to construct and maintain fences on either side of the rights of way.

H. B. 168, Kennedy of Allen—Creates a separate department of inspector of building and loan associations, which has been under the wing of the state superintendent of insurance, and fixes the salary of the head at \$3,600 annually.

H. B. 204, Venus of Huron—Bill to make the state department of building and loan associations self-sustaining by requiring fees of all such organizations.

H. B. 134, Hite of Perry (Good Roads Bill)—Makes state levy of one-half mill to build a complete system of intercounty and market roads; will provide a total of \$3,000,000 annually for this purpose, the same to be distributed in equal portions among the counties of the commonwealth.

H. B. 302, Read of Summit—Amends the anti-speed law adopted to catch automobile joy riders so as to include motorcycle scorchers.

OHIO MAN LAUDS UNITED DOCTORS FOR GREAT CURE

PROMINENT BELLEVILLE, OHIO MAN TELLS OF REMARKABLE CURE OF KIDNEY TROUBLE.

TREATED SEVEN DAYS.

All Pain and Aches Gone in One Week With New "United Treatment of Specialists."

Thousands of testimonials are received yearly by the United Doctors in their different institutes throughout the country and Ohio offers its share of testimonials to the famous specialists, who have their Newark institute on the second floor of the Arcade building. There is nothing stronger than the testimonial of a sick person, showing others where to go to obtain a cure. Often it is the means of pointing the way to health to some sufferer who might otherwise go along for years without obtaining relief. The following letter written to the public by an Ohio man should be of interest to every one.

"To The Public:

"I wish to say a few words to the public regarding the treatment I have received from the United Doctors and also mention my past condition."

"I have been bothered with kidney trouble for some time past and suffered intense pain from it. I took considerable medicine but it failed to help me."

"One day I decided to go to the United Doctors and see what they could do for me. They told me honestly my condition and did not hold out any false hopes that I could be cured. It is now just exactly seven days since I began treatment and I wish to say that all my pains from this kidney trouble have already left me. I will continue their treatment a while longer, simply as an extra precaution."

(Signed) Chas. Bolon.

Route No. 2, Belleville, Ohio.

The United Doctors treat among other diseases and ailments chronic and deep-seated diseases of the nerves, heart, blood, liver, kidneys, bladder, skin, spine, including rheumatism, neuralgia, epilepsy, paralysis, gall stones, catarrh, deafness, asthma, eczema, constipation, indigestion, rectal troubles and diseases of women and diseases of men.

EXHIBIT HEART OF MRS. SMITH

Springfield, April 22.—A terse moment occurred in the trial of Dr. Arthur Smith, charged with the murder of his first wife when H. W. Brundage on re-direct examination exhibited the heart of the late Mrs. Cavalier Smith. The heart of a man was also produced to procure comparison. Dr. Brundage reiterated his opinion that the death of Mrs. Florence Smith was not from natural causes. Dr. J. J. Coons who conducted a microscopic examination of the body of Mrs. Smith said, "we found no condition in the heart of Mrs. Smith to account for sudden death."

THE TARIFF BILL RATES ARE LOW

Washington.—The special session of congress, which was called to revise the tariff, was addressed personally by President Wilson, who read his message to the houses. It was the first time that a thing of this kind has been done since John Adams was president.

The new rates would reduce the government's customs revenue \$120,000,000 a year, a sum which, it is proposed, shall be made up through the new tax on incomes.

The purpose of the measure is to put the burden of governmental expense upon the wealthy and by reducing the price of necessities lower the cost of living for the poor.

The metals schedule: Steel rails free; steel and iron wire, now 55 per cent, to 20 per cent; forgings, now 30 per cent, to 15 per cent.

Machinery to be generally reduced. Automobiles unchanged. Steam engines and machine tools reduced from 30 per cent to 15 per cent.

Sugar to be on the free list in 1916. An immediate reduction of 25 per cent is proposed.

Woolen cloths, knit fabrics and manufactory goods to be reduced from 35 per cent to 25 per cent.

Cotton cloth is reduced from 30 and 40 per cent to 7 1/2 and 27 1/2 per cent.

Meats are to be on the free list. Rates on live stock to be reduced generally—cattle, from 27 1/2 per cent to 10

FUNERALS OF AUTO TRAGEDY AT PATASKALA

Mrs. Clara Dixon to be Buried Wednesday Morning and Dr. B. B. Ashbrook Thursday Morning.

Funeral services for the remains of Dr. Byron B. Ashbrook, of Pataskala, who was killed Monday when his auto was struck by a fast Pennsylvania special, probably will be held Thursday morning. Definite arrangements were pending pending arrival of his son, William Ashbrook, Jr., from Minneapolis.

Mrs. Clara Dixon, housekeeper for Dr. Ashbrook, also met death when the auto was struck. The funeral service will be held at her home in Pataskala at 10 o'clock. She is survived by her parents and several brothers and sisters.

Representative Ashbrook, brother of the accident victim, arrived in Newark from Washington Tuesday afternoon over the Pennsylvania lines and was met by H. B. Rusler of Johnstown who took him directly to Johnstown from where he will go to Pataskala accompanied by Mrs. Ashbrook.

Representative Ashbrook was greatly shocked by the news of his brother's death, conveyed to him in a telegram from J. L. Moore of Pataskala, Monday, shortly after the accident. His venerable father, William Ashbrook, Sr., of Johnstown, is said to have borne up remarkably under the shock, considering his advanced years. The senior Mr. Ashbrook is 84 years old.

M. P. Ashbrook, of Granville, another brother, went to Pataskala Tuesday, and Dr. Ashbrook's son, Byron, a student in Denison University, went home shortly after the accident Monday. William, the other son, is expected to arrive Wednesday morning from Minneapolis.

goods at lower prices than others."

"Which is the wisest course for our government to take," the report asked, "the one that demands the protection of profits, the continued policy of hot house growth of our industries—the stagnation of development that follows where competition ceases—or on the other hand, the gradual and insistent reduction of our tariff laws to a basis where the American manufacturer must meet honest competition, where he must develop his business along the best and most economical lines; where, when he fights at home to control his market, he is forging the way in the development of his business to extend his trade in the markets of the world. In our judgment, the future growth of our great industries lies beyond the seas."

"In connection with our legislative work of readjusting the old and adopting the new fiscal policy," the report continues, "congress should eliminate the inequalities and abuses of the existing system of tariff taxation, reduce the customs rates to a sound revenue basis, and levy an income tax to equalize the tariff burdens and to give elasticity and productivity to our revenue system."

The report characterizes the present tariff system as "fluctuating, inflexible, unstable and oftentimes unproductive, thus exposing the government to deficiencies or excesses with all their attendant embarrassments."

"The better the day, the better the feed," remarked the man who is fond of paraphrasing, as he sat down to his Sunday dinner.

Enjoy a Good Dinner.

Avoid Stomach Distress or Indigestion After Eating—Mi-na.

Let us tell you how to enjoy a good dinner so that the heartiest meal will set well on your stomach, cause no unpleasant and disagreeable after-effects; no kick-back as it were.

We will show you how to regain the appetite of your childhood; and, best of all, perfect enjoyment of your food.

There is no hard work; no need of a rigid diet list; no disagreeable medicine; instead, eat what you like, when you want it, and use Mi-na Stomach Tablets. Mi-na spells stomach comfort. The action of the food in the stomach is immediate. It is not only a digestive giving prompt relief, but a specific for stomach ills. Mi-na strengthens the digestive organs, soothes the irritated membrane, and increases the flow of digestive fluids so that the stomach is always ready to care for the food as nature intended.

Do not continue to suffer with that uncomfortable feeling after a hearty meal. Get a box of Mi-na Stomach Tablets today—always keep them in the house—carry them when traveling. To enjoy life is to enjoy your meals.

Money always refunded if Mi-na is not satisfactory. Evans' drug store and druggists everywhere. 50c a large box.

BURNED BOATS AND HOUSES

London, April 22.—Militant suffragettes early today burned the Handsworth Park boat house in Birmingham. Four large boats were destroyed.

HOMER

The good people of Homer and vicinity promptly responded to the call for aid from Columbus, sending a large donation in clothing, canned fruit, potatoes, bread and children's clothing, towels, etc. The M. E. Sunday school collected over \$20 Sunday, last's other donations, which was sent at once. When the call again came for more children's clothing, the ladies nobly went to work and spent a day making children's clothing. Homer has surely done her part toward the flood sufferers.

Music In the Home.

We are all more or less aware of the value, and indeed the necessity of furnishing books to all children and even of making it possible for them all to see good pictures. We are apt, however, to regard music as something that we need provide only for the exceptional child, the child who shows signs of being what we call "musical." This is due partly to the fact that music lessons are more expensive than books, and that a ticket to a concert costs about four times as much as a ticket to a museum. Our mistake is in fancying that costly music lessons and concerts are the only means of furnishing musical instruction of the best kind to children. Some of the finest music in the world is so simple that any mother who plays the piano at all can perform it for her children, and, moreover, teach them to play it themselves.—Home Progress.

To prove that some people really have brains you would have to hit them over the head with a club.
